

Safety Data Sheet PTG-4279 Prepared in accordance with the model Work Health and Safety Regulations Date of issue: 01/14/2016 Revision date: 01/14/2016 Version: 1.0

SECT	ION: 1. Product and company i	dentification	
1.1.	Product identifier		
Product	t form	: Mixture	
Name		: PTG-4279	
Formula	a	: ETHANE % 0.1, PROPANE % 0.1, ISO-BUTANE % 0.1, BUTA 0.1, PENTANE % 0.1, CARBON DIOXIDE % 0.1, METHANE %	
1.2.	Relevant identified uses of the subs	tance or mixture and uses advised against	
Use of	the substance/mixture	: Calibration / Reference	
Use of	the substance/mixture	: Industrial use. Use as directed.	
1.3.	Details of the supplier of the safety	data sheet	
		Manufactured For: Scientific Gas Australia Pty Ltd. Unit 3, 1 Perry Street Matraville NSW, 2036 - Australia T PH 1300 880 531	By: PortaGas (Praxair, Inc.) 1202 E Sam Houston Pkwy S Pasadena, TX 77503 T 281-928-6477
1.4.	Emergency telephone number		
Emerge	ency number	: Onsite Emergencies: 1-800-645-4633; Australian Poison Inform Australian Fire Brigade: 000 CHEMTREC: USA 1-800-424-9300, International 001-703-527 contract 17729)	

SECTION 2: Hazard Identification	
2.1. Classification of the substance o	r mixture
Classification (GHS-AU)	
Compressed gas H280	
2.2. Label elements	
GHS-AU labelling	
Hazard pictograms (GHS-AU)	: GHS04
Signal word (GHS-AU)	: WARNING
Hazard statements (GHS-AU)	: H280 - CONTAINS GAS UNDER PRESSURE; MAY EXPLODE IF HEATED OSHA-H01 - MAY DISPLACE OXYGEN AND CAUSE RAPID SUFFOCATION
Precautionary statements (GHS-AU)	 P403 - Use and store only outdoors or in a well-ventilated place CGA-PG27 - Read and follow the Safety Data Sheet (SDS) before use CGA-PG21 - Open valve slowly CGA-PG12 - Do not open valve until connected to equipment prepared for use CGA-PG11 - Never put cylinders into unventilated areas of passenger vehicles CGA-PG10 - Use only with equipment rated for cylinder pressure CGA-PG06 - Close valve after each use and when empty CGA-PG02 - Protect from sunlight when ambient temperature exceeds 52°C (125°F) CGA-MP01 - IF INHALED: Remove person to fresh air and keep comfortable for breathing. Get medical advice/attention P261 - Avoid breathing gas, vapors
2.3. Other hazards	
Other hazards not contributing to the classification	: Asphyxiant in high concentrations.

	×	124-30-3	0.1	
SECTION 4: First aid measu	ures			
4.1. Description of first aid m	easures			
First-aid measures after inhalation				le for breathing. If not breathing,
		espiration. If breathing	is difficult, trained perso	onnel should give oxygen. Call a
	physician.			
First-aid measures after eye contact				minutes. Hold the eyelids open and
		e eyebalis to ensure that ist immediately.	t all surfaces are flushe	ed thoroughly. Contact an
		-		
4.2. Most important symptom	ns and effects, both acute ar			
	No additional	information available		
4.3. Indication of any immedi	iate medical attention and s	pecial treatment neede	ed	
None.				
SECTION 5: Firefighting me				
	asures			
5.1. Extinguishing media				
Suitable extinguishing media	•	hing media appropriate	for surrounding fire.	
HazChem code	: 2TE.			
5.2. Special hazards arising f	from the substance or mixtu	re		
Reactivity	: No reactivity h	nazard other than the ef	fects described in sub-	sections below.
5.3. Advice for firefighters				
Firefighting instructions	: Evacuate all r	personnel from the danc	per area. Use self-cont	ained breathing apparatus (SCBA)
	and protective Remove igniti	e clothing. Immediately	cool containers with was so. Remove container	ater from maximum distance. s from area of fire if safe to do so.
Protection during firefighting		gas: asphyxiant. Suffoca	•	5
Special protective equipment for fire		0 1 2		Breathing Apparatus) for fire
	fighters.			5 TT
Other information	: Containers ar by DOT.).	e equipped with a press	sure relief device. (Exce	eptions may exist where authorized
	<i>by b b c c c c c c c c c c</i>			

SECTION 6: Accidental release measures 6.1. Personal precautions, protective equipment and emergency procedures 6.1.1. For non-emergency personnel No additional information available

Safety Data Sheet PTG-4279 Prepared in accordance with the model Work Health and Safety Regulations Date of issue: 01/14/2016 Revision date: 01/14/2016 Version: 1.0

	AUSTRALIA	
6.1.2.	For emergency responders	No additional information available
6.2.	Environmental precautions	
	·	Prevent waste from contaminating the surrounding environment. Prevent soil and water pollution. Dispose of contents/container in accordance with local/regional/national/international regulations. Contact supplier for any special requirements.
6.3.	Methods and material for containment	t and cleaning up
		No additional information available
6.4.	Reference to other sections	
		See also sections 8 and 13.
SECT	ION 7: Handling and storage	
7.1.	Precautions for safe handling	
Precaut	ions for safe handling :	Wear leather safety gloves and safety shoes when handling cylinders. Protect cylinders from physical damage; do not drag, roll, slide or drop. While moving cylinder, always keep in place removable valve cover. Never attempt to lift a cylinder by its cap; the cap is intended solely to protect the valve. When moving cylinders, even for short distances, use a cart (trolley, hand truck, etc.) designed to transport cylinders. Never insert an object (e.g, wrench, screwdriver, pry bar) into cap openings; doing so may damage the valve and cause a leak. Use an adjustable strap wrench to remove over-tight or rusted caps. Slowly open the valve. If the valve is hard to open, discontinue use and contact your supplier. Close the container valve after each use; keep closed even when empty. Never apply flame or localized heat directly to any part of the container. High temperatures may damage the container and could cause the pressure relief device to fail prematurely, venting the container contents. For other precautions in using this product, see section 16.
7.2.	Conditions for safe storage, including	any incompatibilities
Storage	e conditions :	Store in a cool, well-ventilated place. Store and use with adequate ventilation. Store only where temperature will not exceed 125°F (52°C). Firmly secure containers upright to keep them from falling or being knocked over. Install valve protection cap, if provided, firmly in place by hand. Store full and empty containers separately. Use a first-in, first-out inventory system to prevent storing full containers for long periods OTHER PRECAUTIONS FOR HANDLING, STORAGE, AND USE: When handling product under pressure, use piping and equipment adequately designed to withstand the pressures to be encountered. Never work on a pressurized system. Use a back flow preventive device in the piping. Gases can cause rapid suffocation because of oxygen deficiency; store and use with adequate ventilation. If a leak occurs, close the container valve and blow down the system in a safe and environmentally correct manner in compliance with all international, federal/national, state/provincial, and local laws; then repair the leak. Never place a container where it may
70	Specific and yea(a)	become part of an electrical circuit.
7.3.	Specific end use(s)	

None.

8.2. Exposure controls

Appropriate engineering controls

: Provide adequate general and local exhaust ventilation. Ensure exposure is below occupational exposure limits (where available).

Personal protective equipment

: Gloves. Safety glasses.

Safety Data Sheet PTG-4279

	Prepared in accordance with the model Work Health and Safety Regulations Date of issue: 01/14/2016 Revision date: 01/14/2016 Version: 1.0
Eye protection	: Wear safety glasses when handling cylinders; vapor-proof goggles and a face shield during cylinder changeout or whenever contact with product is possible. Select eye protection in accordance with AS/NZS 1336 and AS/NZS 1337.
Skin and body protection	. Wear work gloves and metatarsal shoes for cylinder handling. Protective equipment where needed. Select in accordance with AS/NZS 2161, AS/NZS 2210.1, and AS/NZS 4503.
Respiratory protection	. When workplace conditions warrant respirator use, follow a respiratory protection program that meets AS/NSZ 1715, AS/NSZ 1716, ANSI Z88.2, or MSHA 30 CFR 72.710 (where applicable). Use an air-supplied or air-purifying cartridge if the action level is exceeded. Ensure that the respirator has the appropriate protection factor for the exposure level. If cartridge type respirators are used, the cartridge must be appropriate for the chemical exposure. For emergencies or instances with unknown exposure levels, use a self-contained breathing apparatus (SCBA).
Thermal hazard protection	. Wear cold insulating gloves when transfilling or breaking transfer connections.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and	chemical properties
Physical state	: Gas
Color	: Colorless
Odor	: No data available
Odor threshold	: No data available
рН	: Not applicable.
Relative evaporation rate (butyl acetate=1)	: No data available
Relative evaporation rate (ether=1)	: Not applicable.
Melting point	: No data available
Freezing point	: No data available
Boiling point	: No data available
Flash point	: No data available
Auto-ignition temperature	: No data available
Decomposition temperature	: No data available
Flammability (solid, gas)	: No data available
Vapor pressure	: Not applicable.
Relative vapor density at 20 °C	: No data available
Relative density	: No data available
Solubility	: Water: No data available
Log Pow	: Not applicable.
Log Kow	: Not applicable.
Viscosity, kinematic	: Not applicable.
Viscosity, dynamic	: Not applicable.
Explosive properties	: Not applicable.
Oxidizing properties	: None.
Explosion limits	: No data available
9.2. Other information	
	No additional information available

SECT	ION 10: Stability and reactivity		
10.1.	Reactivity		
		No reactivity hazard other than the effects described in sub-sections below.	
10.2.	Chemical stability		
		Stable under normal conditions.

Safety Data Sheet PTG-4279 Prepared in accordance with the model Work Health and Safety Regulations Revision date: 01/14/2016 Date of issue: 01/14/2016 Version: 1.0

SECTION 16: Other information	
Other information	: When you mix two or more chemicals, you can create additional, unexpected hazards. Obtain and evaluate the safety information for each component before you produce the mixture. Consult an industrial hygienist or other trained person when you evaluate the end product. Before using any plastics, confirm their compatibility with this product
	Praxair asks users of this product to study this SDS and become aware of the product hazards and safety information. To promote safe use of this product, a user should (1) notify employees, agents, and contractors of the information in this SDS and of any other known product hazards and safety information, (2) furnish this information to each purchaser of the product, and (3) ask each purchaser to notify its employees and customers of the product hazards and safety information
	The opinions expressed herein are those of qualified experts within Praxair, Inc. We believe that the information contained herein is current as of the date of this Safety Data Sheet. Since the use of this information and the conditions of use are not within the control of Praxair, Inc, it is the user's obligation to determine the conditions of safe use of the product
	Praxair SDSs are furnished on sale or delivery by Praxair or the independent distributors and suppliers who package and sell our products. To obtain current SDSs for these products, contact your Praxair sales representative, local distributor, or supplier, or download from www.praxair.com. If you have questions regarding Praxair SDSs, would like the document number and date of the latest SDS, or would like the names of the Praxair suppliers in your area, phone or write the Praxair Call Center (Phone: 1-800-PRAXAIR/1-800-772-9247; Address: Praxair Call Center, Praxair, Inc, P.O. Box 44, Tonawanda, NY 14151-0044)
	PRAXAIR and the Flowing Airstream design are trademarks or registered trademarks of Praxair Technology, Inc. in the United States and/or other countries.
